Agriculture is the science and art of cultivating plants and livestock. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The history of agriculture began thousands of years ago. After gathering wild grains beginning at least 105,000 years ago, nascent farmers ...

Agricoltura is the culmination of multiple projects I've worked on in the past related to the sensing and control of agriculture systems, notably HydroPWNics and SunLeaf. Agricoltura aims to unite all the concepts of those past projects into a new system based primarily on RS485 nodes for control of pumps, sensor sampling, and light control. The base system will be a gateway controller linked ...
