12 Best Images of Chapter 11 DNA And Genes Worksheet ...

Genes are the DNA stretches which encode for specific proteins. DNA is a biomolecule, which contains genetic information: Regulates the traits of an organism. Regulates gene regulation. Gene is a specific sequence present on a short stretch of DNA. DNA made up of two long chains of polynucleotides wound together: Genes are made up of either DNA or RNA. DNA is a polymer of nucleotides: A gene is located on a chromosome.
