Topic 8 Evolution. STUDY. PLAY. Mechanism for Evolution.  
Charles Darwin concluded that biological evolution occurs as a  
result of natural selection, which is the theory that in any given  
generation, some individuals are more likely to survive and  
reproduce than others. In order for natural selection to occur in a  
population, several conditions ...

Biology Paper Two - Inheritance, Variation and Evolution  
Biological evolution is the supposed process by which the first cell  
evolved into the diversity of life we see today. Natural selection and  
mutations are considered its driving force; however, evolution has  
never been observed despite numerous protestations to the contrary.
