The Reef Aquarium - Volume 2 - Books - Aquarium Supplies

The Reef Aquarium Volume One is the first installment of a three part series on reef aquariums. These books were written by two well respected reef keepers (Delbeek and Sprung) in the mid 1990's but still are awesome resources even today.

The Reef Aquarium Volume One - Fishlore

Despite all these advancements in our increasingly scientific and precision approach to reef aquariums, one key factor which we feel is sorely lacking is knowing the actual volume of our reef aquarium systems. A typical 180 gallon aquarium is 72 x 24 x 24 inches in dimension, making it 41,472 cubic inches, which actually works out to 179.5 gallons.
